Dawit Diriba
Fullstack Web Developer

I am full-stack web developer, I have expertise in various front-end and back-end technologies like HTML, CSS, Scss, Tailwindcss, JavaScript, React, and Redux. Additionally, I have hands-on experience in using NextJs for server-side rendering, building scalable and performant VueJs applications with Vuetify, Vuex, and Pinia, as well as building robust and efficient server-side applications using NodeJs, Express, and MongoDB. With my diverse skill set and ability to work on the full technology stack, I believe I can bring significant value to any team looking for a skilled web developer.
